

New Journal of Physics

The open access journal for physics

This is to certify that the article

Excitonic properties of armchair graphene nanoribbons from exact diagonalization of the Hubbard model

by **Jessica Alfonsi and Moreno Meneghetti**

has been selected by the editors of *New Journal of Physics* for inclusion in the exclusive 'Highlights of 2012' collection. Papers are chosen on the basis of referee endorsement, novelty, scientific impact and broadness of appeal.

Professor Eberhard Bodenschatz

Editor-in-Chief
