

Industrial Forum and Training for Materials Modelling

Bologna, Italy.

September 11-12th

Titles of Invited Talks

Multi-Scale molecular dynamics in soft matter

Valentina Tozzini, Istituto Nanoscienze CNR - NEST-SNS, Pisa, Italy.

Multiscale modelling of organic devices by Kinetic Monte Carlo

Alison Walker, University of Bath, Bath, UK.

Li-Ion battery ageing: challenges of the multi-scale modeling

GERARD Mathias, CEA LITEN, Grneoble, France.

Computational Screening Strategies of OLED Materials for Mass Production Process

Hyeonho Choi, Samsung Advanced Institute of Technology, Yongin-si, Gyeonggi-do, South Korea.

Some applications of mathematical and numerical methods for material modeling.

Paolo G. Ferrandi, MOXOFF srl - Spin-off Politecnico di Milano, Milano, Italy..

Multiscale Modelling Approaches: Understanding and Designing Organic Semiconductors

Christian Lennartz, BASF SE, Ludwigshafen, Germany.
